

Arts for Learning Photo and Video Waiver

Dear Parents, Teachers, Guardians, and Coordinators,

Arts for Learning is providing an artist performance, workshop or residency at a school, community site, or other program your child is involved in. **Arts for Learning** is the oldest and largest provider of professional arts education programs for children in the state. We work with over 100 artists and organizations in the community to provide children with the opportunity to experience the arts directly. We are a non-profit organization and our ability to continue to bring artist programs to your child's school or community center depends in a large part on grants and donations.

As part of this programming, at times **Arts for Learning** will take photographs or videos of children working with our artists. These photographs and videos may be used in our newsletter, on our website, on social media by the organization or the artist, or in other marketing materials. For security reasons, the child's name will never be used with the photograph. Arts for Learning respects the child's privacy and is asking your permission to take the child's picture. Please sign this form and return to the child's classroom teacher or program supervisor.

I give my permission for my child's photograph to be used for documentary and promotional purposes by **Arts for Learning**.

Student name (print) _____

Parent/Guardian Signature _____ Date _____
